The information disclosure statement filed Jan 31, 2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. The affected references have been placed in the application file, but the information referred to therein has not been considered.
  - a. JP 59 86422 lacks an explanation of relevance.
  - b. JP 59 185425 is accompanied by an English language abstract, but that abstract does not appear to bear any resemblance to the material contained within the foreign language reference, nor is it relevant to anything contained within the instant application.
